# Storyboard

Scenario: Emma wants to check her schedule and examine whether there are any scheduling conflicts between her classes. Further, she wants to add a new activity to her schedule.

1. Emma logs in into my class schedule app
2. As she logs in she is able to see her classes; she notices conflicts in her schedule
3. She clicks on one of the conflicting courses to view further information about it
4. Emma decides to view her classes day-by day to consider adding a new class
5. From Monday she navigates to Wednesday to add an activity, but she realizes that her schedule is too busy
6. Emma opens + tab to create a new activity
7. She names the activity
8. Emma selects Friday instead of Wednesday
9. Emma inputs location
10. Emma adds the activity to her schedule
